**\*Mandatory Community Check Point(s) Effective Immediately\* COVID-19 Notice-until further notice.**

As you may be aware, there are check points in the Nation, please do not be alarmed, we are not on lock down at this point. Station's have been set up and our Peacekeeper's and RCMP have been notified and working together to make a smooth transition, to this mandatory implementation set forth by the Leadership and Emergency Management Committee. We kindly ask for your cooperation and compliance during these check points. We are doing this to help monitor traffic in and out of Kehewin. Everyday there will be a reassessment of our checkpoints/monitoring stations and we may be required to heighten our precautionary emergency measures. Please be patient and we will keep the Nation notified daily of updates.

Everyone is highly encouraged to stay home as much as possible and only travel for essential and medical services. Only one member from household should do the shopping. Please, we cannot stress enough to limit/discourage visiting, and remember practice social distancing. We are doing this to protect our members of our Nation and this is part of the emergency plan to apply safety mechanisms. Call 811 for any symptoms and 1.833.Kehewin for any questions.

Thank you
